According to the deed of gift signed May 2011, copyright of these materials has been retained by the Edward M. Kennedy Institute for the United States Senate to the fullest extent possible under applicable law. Documents in this collection that were prepared by officials of the United States as part of their official duties are in the public domain. Users of these materials are advised to determine the copyright status of any document from which they wish to publish. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excesses of "fair use," that user may be liable for copyright infringement. ## **Series Overview**

### **Series 016. Government Agency Referral Files (F-14), 1963-1975.**

**Extent:** 53.424 cubic feet (106 boxes).

**Arrangement:** Arranged chronologically by year, thereunder alphabetically by agency name. Records for 1963 to 1965 are filed together; beginning in 1966 each year is filed individually. State agencies are grouped under the heading "Massachusetts agencies."

This series contains constituent correspondence and other material pertaining to federal and Massachusetts state government agencies. These files were created and maintained by the staff of Senator Edward M. Kennedy's office in Washington, D.C., and were assigned the central filing code F-14. As a group, they provide evidence of how Senator Kennedy acted as a liaison between the federal government and the citizens of Massachusetts. The correspondence in this series involves issues that were outside of Senator Kennedy's purview and therefore the letters were referred to the appropriate government agency for a response. Constituents contacted the Senator for assistance with a wide variety of government services and benefits as well as questions about policies, regulations, and legislation. As nearly every federal agency is represented in these files, the topics covered are very broad; to locate material on a certain subject, consult the files for the agency with jurisdiction in that area. With some topics such as

intellectual disabilities (formerly called mental retardation), Senator Kennedy received inquiries from individuals outside of Massachusetts and even internationally due to public knowledge of his family's interest in those topics. Each inquiry packet usually includes the original letter, a routing slip addressed to a certain agency, the agency's response to Senator Kennedy, and a letter from the Senator's office forwarding the response to the constituent. Some inquiries include background material such as forms, reports, publications, photographs, or notes by Senator Kennedy's staff. Some agency files also include printed material such as press releases and grant reports. Please note that voluminous grant reports issued by the Department of Health, Education, and Welfare (HEW) were weeded during processing because they are available elsewhere; only the portions related to Massachusetts were retained. This series was opened in November 2023.
